Specialized and upper specialized clinics and clinics

Specialized Orthopedic Clinic

- Shoulder Fellowship
- Pediatric orthopedic Fellowship
- Hip and hip Fellowship
- Knee Fellowship
- Bone mass Fellowship
- Hand and elbow Fellowship
- Spine Fellowship

Neurosurgery Specialist Clinic

- Lysis of the vertebrae (lysis) spinal cord
- spinal waist disk
- Spinal canal stenosis
- Craniotomy nerves
- Stereotaxic nerves

- **General Surgery Specialist Clinic**
- **Specialist Internal Medicine Clinic**
- **Specialized clinic of maxillofacial**
- **Cardiovascular Clinic**
- **Specialist Neurology Clinic**

The clinic is open from Saturday to Wednesday in the morning and evening shifts, and patients can be admitted online via the Shafadak website (WWW.Shafadoc.ir).

Medical Center Sections

Orthopedic elective hospitalized patients included

Surgery:

- Osteotomy of the bones and correction of their deformities
- Joint reform and repair (Arthroplasty of the hip, pelvis, knee and shoulder)
- Arthroscopy of the joints, repair of the ruptured miniscule knee
- Tendon repair (by replacing them) and nerves
- Treatment of various congenital anomalies (hand and foot extra finger)...
- Examining and curing of different types of cysts and tumors
- Repair and treatment of sports injuries

Pediatric Surgery Department

- Elective patients included
- Foot Club
- DDH
- Scoliosis
- Polydactyly

The neurosurgical department is open to the following patients:

- Specialized surgery of the Lysis spine
- Specialized Lumbar Spine Surgery
- Specialized surgery for spinal stenosis spinal canal
- Specialized craniotomy neurosurgery
- Specialty neurosurgery surgery stereotaxis

Emergency Department:

- Patients with cardiac arrest, respiratory failure, by 115 or by personal device
- Multi-trauma patients due to falls from altitude or driving accidents
- Patients with limb amputations (mostly fingers)
- Limb traumas (Torsion, Elongation)
- Limb trauma (fractures and dislocations)
- Head and Spinal Trauma
